FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Honorable Ed Pastor
House of Representatives
408 Cannon House Office Building
Washington, D.C. 20515

Dear Congressman Pastor:

This is in reply to your letter of May 3, 1993, regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235 / 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz. You expressed concern about the impact of the proposed subsection 88.429 regarding power levels for local government and other two-way radio systems located in rural areas.

The primary purpose of the Notice was to foster emerging mobile telecommunications technologies that can help resolve spectrum congestion. While congestion is most pronounced in urban environments, the evidence suggests that pockets exist in even the most rural states. We are, however, fully aware of the varying needs of users of private land mobile radio spectrum, including those of local governments and in rural areas. To this end, Commission staff has had numerous meetings with representatives of various trade groups representing public safety agencies. These discussions have been fruitful and should lead to final rules that achieve the important goals of the Notice while minimizing costs to all users.

We want to thank you for your interest in this proceeding. As you have requested, your concerns will be included in the record of this proceeding and will be considered in developing final rules.

Sincerely,

James H. Quello
Chairman

Washington, D.C. 20554

Dear James:

We are writing to express our concerns about PR Docket 92-235, specifically subsection 88.429 (regarding power levels). This proposed rule ignores the unique characteristics of rural areas and could cost local governments hundreds of thousands of dollars each to fix a problem they don't have.
